ART UNIT PAPER NUMBER

3761

DATE MAILED: 06/28/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

58

**Advisory Action  
Before the Filing of an Appeal Brief**

Application No.

09/778,687

Applicant(s)

KLINE ET AL.

Examiner

C. Lynne Anderson

Art Unit

3761

**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

THE REPLY FILED 31 May 2006 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires \_\_\_\_\_ months from the mailing date of the final rejection.  
b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**NOTICE OF APPEAL**

2. ☐ The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

**AMENDMENTS**

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because  
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);  
(b) ☐ They raise the issue of new matter (see NOTE below);  
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or  
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: \_\_\_\_\_. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).  
5. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.  
6. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).  
7. ☐ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.  
The status of the claim(s) is (or will be) as follows:  
Claim(s) allowed: \_\_\_\_\_.  
Claim(s) objected to: \_\_\_\_\_.  
Claim(s) rejected: \_\_\_\_\_.  
Claim(s) withdrawn from consideration: \_\_\_\_\_.

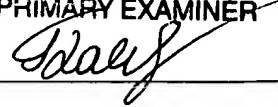

**AFFIDAVIT OR OTHER EVIDENCE**

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).  
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).  
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

**REQUEST FOR RECONSIDERATION/OTHER**

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:  
See Continuation Sheet.  
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). \_\_\_\_\_.  
13. ☐ Other: \_\_\_\_\_.

TATYANA ZALUKAEVA  
SUPERVISORY PRIMARY EXAMINER

Continuation of 11. does NOT place the application in condition for allowance because: The Applicant's arguments have been considered but are not persuasive.

In response to the Applicant's argument that Deagan fails to disclose a mat, it is noted that the bladder of Deagan provides a cushion between the interior of the helmet and the head of the wearer, both when inflated (see figure 2) and uninflated (see figure 1). Since the claim language does not provide any physical structure beyond merely disclosing a mat, the bladder of Deagan fulfills the claimed limitations.

It is noted that the Applicant's arguments the features upon which applicant relies (i.e. the mat being a diaper changing mat) are not recited in the rejected claims. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

In response to the Applicant's argument that Deagan fails to disclose movement of the helmet, it is noted that the inflation of the bladder causes the helmet to be moved off of the wearer's head, as shown in figure 2,

In response to the Applicant's argument that Deagan fails to disclose an air jet, it is noted that the cannister 44 shown in figures 1 and 2 discharges a stream of air through a nozzle, and therefore fulfills the claimed limitation. The air in the cannister is under pressure and therefore will be discharged in a forceful stream, and the opening of the cannister is shown in figure 1 as a narrow opening.

In response to the Applicant's argument that Deagan fails to disclose a transformation of the helmet, it is noted that the inflation of the bladder causes the condition of the helmet to change by decreasing the interior size of the helmet. Therefore, the effect generating element of Deagan causes a transformation of the helmet.

In response to the Applicant's argument that Deagan fails to disclose a change in the size of the helmet, it is noted that when the bladder is inflated, the interior space of the helmet is decreased, making the interior of the helmet smaller in size.

With respect to the rejection of claims 4, 19, and 22-25 under 35 USC 102(b) as anticipated by Malick, the Applicant is correct in the interpretation of the Examiner's position. The magnet disclosed by Malick is equated to the claimed 'effect generating mechanism comprising a magnet.' The magnet moves and transforms the article between a first condition (i.e. open) and a second condition (i.e. closed).

In response to the Applicant's argument that Malick fails to disclose activation or deactivation of an adhesive, it is noted that the zipper adheres the portions of the article together. When fastened, it is therefore active, and when unfastened, it is therefore deactivated.
